

NEWS FROM THE ORIENT.
Chinese Immigrating to Siberia—Severe Weather in Japan.

VANCOUVER, B. C., May 24.—The following news have been received by the steamship Empress of India:

The Chinese are immigrating to Siberia in large numbers, 11,123 having landed at Vladivostok since the opening of that port spring.

Despatches have been received from the Mexican and the Brazilian Governments inviting Chinese to those countries as agricultural laborers. Yang, Envoy to Spain and Peru, will probably be sent to those republics to investigate the matter.

The visits of foreign sealing schooners to Japanese waters has of late attracted attention in Japan, and a general belief prevailed that they carried on their operations within the territorial waters of Japan, and the native journals called upon the Government to keep the poachers away. A man-of-war, which was despatched to investigate the movements of these sealers, struck about the coast, and reports of the strifes about the despoilers of foreigners are exaggerated.

The sealers congregate about the middle of March in the vicinity of the Amakiriwa River in Japan. In May they begin to move southward, following the seals as they return to cooler regions. This movement takes the vessels as far south as the Amakiriwa River, while whaling can not come, as a rule, within the territorial waters of Japan in pursuit of seals.

The captain of the man-of-war reports, however, a rough and unscrupulous set of men, given to the crews of these vessels, and that there is danger of their causing much annoyance to the Japanese. The cost of the sealers' stay in Japanese harbors is estimated at over \$100,000 per year. Much damage was done to tea plants in the three Tama districts of Tokyo.

The native press is finding it necessary to provoke an anti-freedom sentiment which has sprung up, and which is inducing Japanese purchasers to buy American articles, and those who sell them, when foreign commodities are better in quality and cheaper in price. The press points out that this is sentimental and unprofitable, and that it is better to give all the power to keep up the sentiment.

Manufacturers of lacquer ware in Japan have decided to send a delegation to Europe and America to induce the governments to do nothing in the class of manufacture.

The Deputy Marshal of the United States Consulate at Nagasaki has been arrested on the charge of engaging in the exportation of Japanese girls under age for immoral purposes.
